# Cheers to Spill-Free Drinking

On-the-Go Gear

Taking its inspiration from both a toddler's sippy cup and Mom's to-go mug, the 9-ounce **Autoseal Kids Mug** is sleek enough to appeal to the school-age set yet also prevents spills — which is sure to please parents. To drink, kids press and hold down a button, which reveals a sipping-size opening.

When their thirst is quenched, kids simply release the button to slide the spill-proof seal back in place.

Available in four colors. **Ages 4 and up** Contigo, \$8 — PAMELA BRILL
