

100% leak-proof water bottle by Contigo offers storage space too

January 19th, 2011 10:59 am ET

[Contigo water bottles](#) are by far, the coolest on the market. For years I've been searching high and low for a leak-proof water bottle for both my kids and I, with no success. This unfortunately has left many of our purses, car seats and desks at school ... a drippy mess. Never in my wildest "fitness pro dreams" would this leak-proof bottle come with all sorts of other cool gadgets too. First of all, the reason the bottle is leak-proof is because you have to press a button to open up the hole from which you drink. Genius! This feature is offered in the kids model too, which means my cabinets will soon be full of them. The bottle I use, called the **AUTOSEAL® Kangaroo Water Bottle with Compartment**, has a neat little storage spot for something small like a key or credit card and it's handle opens up so you can clip it to your gym bag. It's also 100% BPA Free which makes it perfect. Just perfect.

If you've been looking for a bottle that won't leave your purse, car or gym bags soaked on a regular basis check out [GoContigo.com](#). Not only are these products brilliant, they're inexpensive too. Hooray!

This Examiner Rates Contigo Water Bottle:
